Highlights of Proposed Solution to Kaimuki Parking Problem:

- Multi level parking structure, gated/attended, in middle of large parking lot behind Victorian Inn and Realtor’s Building (formerly Kaimuki Bowl). Space for employee parking. Consider smaller structure in smaller parking lot.
- Town meeting room and HPD police report writing room on ground floor to providing community meeting place and improve security.
- Metered parking retained outside of structure.
- Valet parking option in parking structure.
